

Conventional systems are "one size fits all." Ecological living systems, such as passive solar, bicycle transport, composting, organic gardening, etc., are more interconnected and context-specific. Greywater systems are the most interconnected of these systems, and the most context-sensitive. In this way, greywater is the "poster child" for a more sustainable way of living. In the course of perfecting your greywater management, you'll wind up improving your relationship to all the natural and human resource cycles.

## Why Greywater Matters

**For homeowners, renters, landscapers, plumbers, and contractors. Learn how to—**

- Save freshwater by irrigating with laundry washwater
- Relieve strain on your septic tank
- Purify wastewater better without energy or chemicals

Laundry to Landscape is an open-source, collaborative, state-of-the-art design initiated and curated by ecological designer Art Ludwig. Simple, elegant, and unpatented, it uses off-the-shelf components. This video covers how-to basics for homeowners and renters. Ninety minutes in all, it also has extensive information on tools, parts, installation tricks, options, and special situations; enough for landscapers, contractors, and plumbers to install these systems as part of their green businesses.

"Everything you need to know to put your greywater to work once it's done with your clothes... Art's a knowledgeable genius. Thoughtful and thought-provoking."

—Michael Potts, Author, *The New Independent Home*

"Core curriculum for green plumbers and water conservationists."

—Christina Berteau, Contractor, *First California Journeywoman Plumber*

"L2L is an 'of course' upgrade or stand-alone addition to the majority of our clients' landscapes."

—Daniel Wilson, Landscape Contractor, *WELDesign, Inc.*

"Valuable tips, hints, and tricks, every step of the way. Clearly illustrated key points for seasoned plumber and novice alike. A must-have."

—Bruce Beerup, Author, *TheNaturalHome.com*

"The best video on everything you need to know about a simple, effective greywater system for your home garden. Get the latest direct from the greywater guru...help save the planet."

—Robert Kourik, Author, *Drip Irrigation for Every Landscape and All Climates*

"The depths of greywater have been brought to the light in this easy-to-understand video. Art cares deeply and acts accordingly so that his exhaustive knowledge is accessible to all."

—Laura Bartels, Sustainable Building Consultant, *GreenWeaver, Inc.*
