

Create an Oasis shows how to:

- ✔ Save freshwater by irrigating with washwater
- ✔ Relieve strain on your septic tank
- ✔ Purify wastewater without energy or chemicals
- ✔ Increase your water security
- ✔ Make your home more resilient to drought, flood, and climate change

Greywater is the water from showers, sinks, and washing clothes and dishes. It's great for landscape irrigation—and it is the keystone that ties all the systems in a green home together.

Create an Oasis describes how to choose, build, and use a simple greywater system (some can be completed in an afternoon for less than \$50). Going deeper, it explains how to integrate efficient fixtures, user habits, plant selection and location, rainwater, greywater, and freshwater irrigation for your soil and site conditions.

This twentieth-anniversary edition of the world's best-selling greywater book features a dozen more pages, complete information on the Laundry to Landscape system, new color plates, extensive revisions to every page, and dozens of new photos and figures.

“Greywater for dummies and greywater encyclopedia in one information goldmine.”

—Dan Chiras, author, *THE NEW ECOLOGICAL HOME; THE SOLAR HOUSE*

“Required reading for those who want to control their own destinies and responsibly steward an increasingly dwindling resource: clean water.”

—Jonathan Todd, President, *JOHN TODD ECOLOGICAL DESIGN*

“Ludwig is a water visionary... The most practical and complete presentation of the subject I have seen.”

—Michael MacCaskey, Editor in Chief, *NATIONAL GARDENING*

“You'll be in deep greywater without this book!”

—Jeff Oldham, Head Technician, *REAL GOODS*

“I recommend this book.”

—Bill Mollison, *THE PERMACULTURE INSTITUTE*

“The best, must-have resource on greywater.”

—David Dobbs, Editor, *HARROWSMITH COUNTRY LIFE*

“Art Ludwig's books inform and inspire us... They are survival guides in the age of global warming.”

—Satish Kumar, Editor, *RESURGENCE MAGAZINE*

Laundry to Landscape greywater system.

Originated by Oasis in 2008, this design is now probably the most commonly installed greywater system in North America (p. 57).
